EU RESEARCH FRAMEWORK PROGRAMME
H2020 / Marie Skłodowska-Curie Actions

MARIE CURIE GRANT AGREEMENT NUMBER
676265

The role is to conduct research and data analysis in Dementia field and to participate in a European network and training programme. As part of a research team, the successful candidate will plan and carry out research aimed at evaluating the efficacy of GRADIOR (a computer based cognitive stimulation programme) with people with Dementia, as well as undertaking appropriate training development. This includes coordinating and implementing a randomised controlled trial. These efforts will be pursued in the framework of the Marie Skłodowska-Curie Innovative Training Network "INDUCT" (Interdisciplinary Network for Dementia Utilising Current Technology). The overarching research goal of the INDUCT project is to improve the usability of technology in dementia care by evaluating its effectiveness and implementation issues. This is an interdisciplinary, inter-sectorial, and international consortium involving 8 countries, 4 international organisations, key sectors and the right range of disciplines. It is expected that the role-holder will engage in network-wide training events, public engagement activities and international collaboration through secondments, at industrial or academic partner institutions within Spain and EU. INDUCT works with INTERDEM Academy, a large international collaboration enabling training and development opportunities for all grades of researchers from PhD students to senior academics to develop capacity for future research in dementia care.

ADDITIONAL INFORMATION

Benefits

Salary from € 30.000 to € 35.000 per annum in accordance with the EC Marie Skłodowska-Curie financial guidelines for this scheme

Eligibility criteria

Applicants will be considered on an equal basis, subject to the relevant permission to study in Spain as defined by the requirements set out by the Spanish Immigration and Emigration Agency. Applicants with citizenship of a EU state do not need student visa. Applicants from non EU countries please visit:

<http://extranjeros.empleo.gob.es/es/informacioninteres/informacionprocedimientos/Ciudadanosnocomunitarios/hoja003/index.htm> for visa information in Spanish, and for visa information in English.

The successful applicant will be required to satisfy the eligibility criteria for Marie Curie Early Stage Researchers, i.e:

- Must not already hold a PhD;
- Must be within the first four years (full-time equivalent) of their research career;
- Must not have resided or carried out their main activity (work, studies, etc.) within Spain for more than 12 months in the three years immediately prior to their recruitment.

Selection process

Send CV by 28 of February 2018 to the e-mail: investigacion8@intras.es or mfm@intras.es.

Shortlisted candidates will be invited for interview

Additional comments
